Event Detail :

Name	CFD Workshop at IIT Bombay 2014
Start Date	2014-03-22
End Date	2014-03-22
No. of Participants	67
Venue	LCH, IIT Bombay
Details	The FOSSEE team at IIT Bombay has taken up the initiative of promoting FOSS (Free and Open Source Software) for education. We organized a one day workshop on Computational Fluid Dynamics using OpenFOAM. The OpenFOAM (Open Field Operation and Manipulation) CFD Toolbox is a free, open source CFD software package which has a large user base across most areas of engineering and science. It has an extensive range of features to solve anything from complex fluid flows involving chemical reactions, turbulence and heat transfer, to solid dynamics and electromagnetics.
