Details	Scilab India 2014 , a conference that provides opportunities to spread the use of Scilab in the scientific and educational community in India. The objective of this conference was to facilitate interaction with the best of the Scilab community, with a special emphasis on interaction between young and more experienced researchers. It provides an open ground to learn, understand, participate, and contribute to the Scilab community. Attendees of the conference and participants were able to gain further knowledge of the toolboxes available in Scilab. One of the goals of the conference was to combine education, engineering, and science with computing through the medium of Scilab. We aim to make Scilab comparabale to any equivalent commercial software.
