

Event Detail :

Name	DWSIM Workshop
Start Date	2015-05-29
End Date	2015-05-30
No. of Participants	52
Venue	LH 101, IIT Bombay
Details	The FOSSEE (Free and Open Source Software for Education) project based at IIT Bombay conducted a two day workshop on DWSIM, an open source CAPE-OPEN compliant chemical process simulator, an alternative to Aspen Plus. It runs on Windows in native mode, and Linux and Mac OS X through Mono. DWSIM is useful to teach the Principles of Chemical Engineering. It is also useful to solve industrial problems. The workshop provided an opportunity to legally download for free, install and learn DWSIM.
